# Introduction

Hello and Welcome to the 3rd Annual Stag Sale at Canes Deer.

This year we have brought forward our sale date to coincide with stag walk. Because we sell 3 year old stags, their antler will be sufficiently developed by mid December to assess their potential. With the earlier date it's not quite as easy to get photos online and in the catalogue, but we trust you will be happy with what you see when you get here.

A benefit is that stags you purchase will have more time to settle in to their new surroundings and social groups before mating time. From our own experience new stags can be slow to adapt to new surroundings and at times this has had a negative effect at mating time so the earlier date will help in this regard.

We were obviously pleased when Odysseus scored 702 IOA this year (MM Hub Hall) We've found him to be the most heritable stag we have ever used - by a long shot, and he's proven to us that he crosses well with any bloodline. There are plenty of Odysseus sons in the sale. In the past we have sold semen and services, but these will no longer be available, so this is your only opportunity going forward to access these incredible genetics.

Many of you are interested in velvet weights and so are we. With Balunky and Kane (son of Harvey) genetics in our herd we have respectable velvet weights. Our 2 yr olds this year averaged 2.82kg, 3 yr olds 3.91kg and 4yr olds 4.55 Kg. Top weights in our own, and stags sold in previous sales have been 7.8, 8.2 and 9kg. Body weights will be available on sale day.

We wish you well with your purchases and look forward to sharing a chat after the sale over a BBQ and drinks.

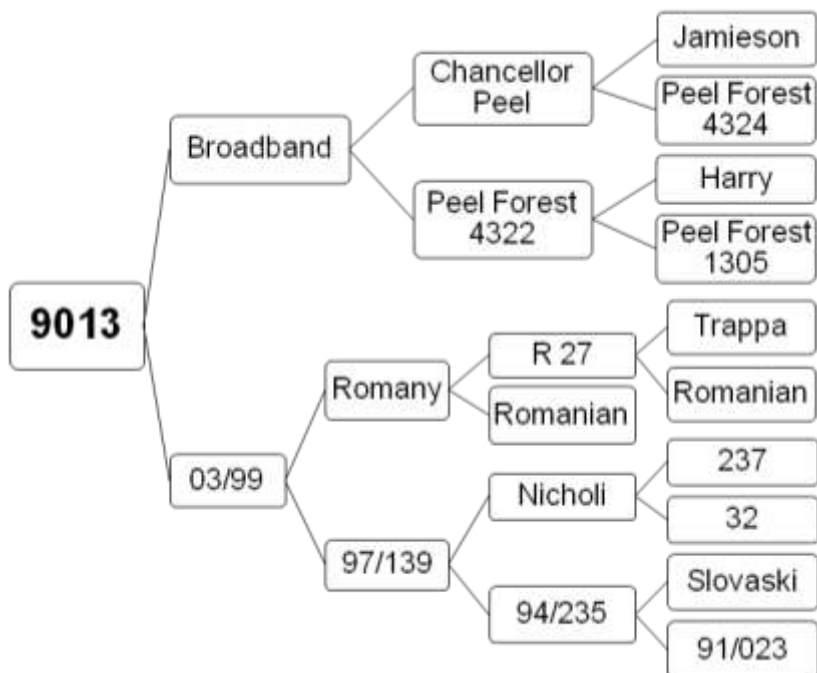

*Kind Regards*

*Kathy and Malcolm Cane*
